## FOR SETTLEMENT PURPOSES ONLY

August 9, 1996

Damaris Urdaz Cristiano, Esq.  
Office of Regional Counsel  
USEPA Region II  
290 Broadway, 17th Floor  
New York, NY 10007

RECEIVED

AUG 12 1996

Re: SCP/Carlstadt De Minimis Settlement (S1019-1)

Dear Ms. Cristiano:

We represent the Ridge Printing Company in the above-referenced matter. We write on behalf of Ridge Printing to express Ridge Printing's interest in participating in the de minimis settlement in this matter. Ridge Printing submits this letter for settlement purposes only, without any admission of fact or law, and reserves all its defenses at law and in equity.

For some reason, Ridge Printing does not appear on the list of potentially responsible parties ("PRPs") which the USEPA supplied to the SCP/Carlstadt Cooperating PRP Group (the "PRP Group"). We enclose copies of the documents which purportedly connect Ridge Printing to the SCP/Carlstadt Site. The PRP Group has determined that the enclosed documents indicate a volume of waste brought to the Site from Ridge Printing of 15,950 gallons. Ridge Printing previously supplied copies of these documents to the USEPA in response to a

598891

August 9, 1996

request for information, under §104(e) of CERCLA, in March, 1985. We enclose a copy of that request for information and Ridge Printing's response.

Please include Ridge Printing Company among the companies interested in participating in the de minimis settlement in this matter. Should you have any questions regarding the above, please do not hesitate to contact me at your earliest convenience.

Very truly yours,

Brian Weeks

Carrier's No.

RECEIVE, subject to the classifications and tariffs in effect on the date of the issue of this shipping order.

At Ridgefield, N. J., March 12 1974

From **RIDGE EMBOSSING CO., INC.**

The property described below, in apparent good order except as noted (contents and condition of packages unknown), marked, numbered and delivered as indicated below, which said carrier (the word carrier being understood throughout  
this contract as meaning any person or corporation in possession of the property, under the contract, agreed to carry to its usual place of delivery at said destination, if on its route otherwise to deliver to another carrier or the route  
to said destination is a through route, or to such carrier of all or any of said property over all or any portion of said route to destination, and as to each party or any time occurring in all or any of said property, that every service to be  
performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Freight Bill of Lading set forth (1) in Official, Southern, Western and Basin Freight Classifications in effect on the date hereof, if this is a rail  
or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.  
Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment,  
and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his agents.

CARRIER: Y.T.

Carrier's No. \_\_\_\_\_

RECEIVE, subject to the classifications and tariffs in effect on the date of the issue of this shipping order,

At Ridgefield, N. J., 4/6 1978 From **RIDGE EMBOSSING CO., INC.**

The property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party of any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Freight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Consigned to <u>SCIENTIFIC CHEMICAL PROCESSING INC.</u>		Subject to Section 7 of Conditions of applicable bill of lading, if this shipment is to be delivered to the consignee without recourse on the consignor, the consignor shall sign the following statement: The carrier shall not make delivery of this shipment without payment of freight and all other lawful charges.

SCIENTIFIC CHEMICAL PROCESSING, INC.,  
ATTN: COMPLAINT SECTION  
216 PATERSON PLANK ROAD  
CARLSTADT, NEW JERSEY 07001

07457

Re: Scientific Chemical Processing, Inc., 216 Paterson  
Plank Road, New Jersey - Administrative Order  
Pursuant to Section 106 of CERCLA

Dear Sir or Madam:

Enclosed please find a copy of the final version of the administrative Order (on Consent) to be issued by the U.S. Environmental Protection Agency (EPA) Region II pursuant to Section 106 of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. §9606, for the performance of a remedial investigation and feasibility study (RI/FS) at the Scientific Chemical Processing (SCP) site in Carlstadt, New Jersey. No further changes to this document are anticipated.

EPA notified numerous potentially responsible parties (PRPs) in May 1985 that it has documented the release and/or threatened release of hazardous substances at the SCP-Carlstadt facility and that EPA contemplates undertaking an RI/FS, as defined in the National Contingency Plan, 40 C.F.R. Part 300. On June 10, 1985, a meeting was held at the World Trade Center, New York City where representatives of EPA and the State of New Jersey met with many of the above-mentioned PRPs and their counsel to exchange information and discuss a publicly financed versus a privately financed remedial action at the subject facility. Immediately following the meeting, a committee of cooperating generators and/or transporters was formed ("the Committee"). In early July 1985, a proposed draft consent order providing for a voluntary

EPX0014162

August 13 and participated in a number of informal negotiations with EPA in an effort to reach agreement on the terms of the Order. As a result, a proposed administrative consent Order, which EPA believes sets forth reasonable requirements for conducting an RI/FS under a reasonable time schedule has, in fact, been drafted with input from and in cooperation with the Committee.

We encourage you to agree to join the numerous other companies who have indicated their interest in consenting to the issuance of this Order and in assuming responsibility for the performance of the work pursuant to its provisions. To do so, please have a responsible corporate officer or agent sign the signature page at the end of the enclosed Order and return the Order with the original signature to me NO LATER THAN 5 P.M., SEPTEMBER 23, 1985 at the following address:

Waste and Toxic Substances Branch  
Office of Regional Counsel (Rm. 437)  
U.S. Environmental Protection Agency - Region II  
26 Federal Plaza, New York, New York 10278

Any company whose consent is received by EPA after that time may be too late, as final issuance of the Order is planned for September 25th; therefore, your prompt attention to this matter and use of express mail or courier delivery services are recommended.

Because of the large number of companies expected to sign this Order, it is not practicable to have all companies sign one document. Instead, copies of the Order are being sent to each company listed in the caption of the document. Upon receipt of each company's signature, EPA will compile the signature pages and, upon issuance of the Order, EPA will make available to each consenting company a copy of the Order with all signatures.

Should any company fail to consent in a timely manner to the Order, the name of that company will be deleted from the caption on the first three pages. Similarly, the caption may be altered to reflect any additional participants.

By this letter, EPA is hereby informing you that upon settling with cooperative PRPs, EPA intends to vigorously seek remaining relief, including costs, penalties and treble damages where appropriate from the nonconsenting parties. Specifically, EPA intends to issue a parallel unilateral administrative order to each of the non-consenting PRPs pursuant to Section 106 of CERCLA, 42 U.S.C. §9606. Failure to comply with such an order gives rise to liability for civil penalties of up to \$5,000 per day, as well as liability for punitive damages of up to three times the amount of any costs incurred by EPA in the remedial action. Included among these costs would be all response and oversight

770

EPX0014163

costs incurred by EPA with respect to the above-mentioned orders.

Furthermore, in the event it becomes necessary for EPA to institute additional publicly funded response actions at the SCP-Carlstadt facility, EPA will recover all costs incurred in connection with institution of these actions including direct and indirect oversight costs and all incidental enforcement-related expenditures, through a demand for payment, and, if necessary, a collection action pursuant to 42 U.S.C. §9607. Although CERCLA provides for full joint and several liability among all responsible parties, and although all PRPs remain liable for costs incurred by EPA in implementing the remedial provisions of CERCLA, consistent with present EPA enforcement policy, such a demand for payment or collection action could be commenced, initially, solely against the PRPs which refused or otherwise failed to participate in the efforts of the Committee to achieve an environmentally acceptable remedy at the subject facility.

In addition to the assurance that EPA intends to take aggressive enforcement action against the non-settling PRPs, the consenting parties who may have paid more than a reasonable portion of the site remedial costs may look to the equitable remedy of contribution for seeking reimbursement from the non-consenting PRPs. The government's position is that CERCLA provides a right of contribution among jointly responsible parties. This is clear from both the legislative history and the intent of the statute.

By this letter, EPA is further informing you that subsequent to the signing of the consent Order and the issuance of all related unilateral orders, EPA will consider evidence of a PRP's non-involvement at the SCP-Carlstadt facility. If any company is able to demonstrate, to EPA's satisfaction, that it is not a responsible party with respect to the SCP-Carlstadt facility, EPA will withdraw the order as to that party.

Although the time remaining for resolution of whether a publicly or privately funded remedial action will be instituted at the SCP-Carlstadt site is short, EPA believes that an arrangement can be reached among the PRPs which will allow a negotiated settlement of the RI/FS to occur.

If you have any questions, please contact Ms. Kathleen Chojnowski of my staff at (212) 264-2221, or Ms. Janet Feldstein of our Emergency and Remedial Response Division at (212) 264-0613.

Re: Scientific Chemical Processing, Inc., 216 Paterson  
Plank Rd., Carlstadt, New Jersey

Dear Sir or Madam:

The United States Environmental Protection Agency ("EPA"), intends to expend public funds to investigate the release and/or threatened release of hazardous substances, pollutants, and contaminants at the above-referenced site. EPA also intends to spend public funds on any investigative and corrective measures necessary to control such release and/or threatened release. EPA intends to do so pursuant to applicable provisions of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), 42 U.S.C. §9601 et seq.

Under section 107(a) of CERCLA and other laws, responsible parties may be liable for any costs incurred by the government in taking corrective actions at the site. Such costs may include but need not be limited to, expenditures for investigation, planning, cleanup of the site and enforcement. By this letter, EPA is notifying you of your potential liability with regard to this matter.

Responsible parties under CERCLA include current and past owners or operators and persons who generated the hazardous substances or were involved in the transport, treatment, or disposal of them. Based on information in the possession of EPA, and/or information submitted by your company, including but not limited to, New Jersey Special Waste Manifests, and/or information submitted by your company, EPA believes that your company may be a responsible party.

EPX0014170

Upon request, the Agency will discuss this information with you and will provide additional information on the nature and extent of the release and/or threatened release. Instructions on how to contact EPA's representative are set forth below.

You are hereby notified that EPA is planning to conduct the following studies at the site:

1. A remedial investigation to identify the nature and extent of the release and threatened release. The goals of this investigation may include:
  - a) identification of local hydrogeological characteristics to evaluate groundwater quality and movement in the vicinity of the site;
  - b) determination of the extent of soil, air and surface water contamination at the site.
2. Feasibility studies to evaluate possible remedial actions to remove or contain hazardous substances at the site.

In addition to the above studies, corrective measures may be necessary to protect public health, welfare or the environment. These corrective measures may include, but may not be limited to:

1. Implementation of initial remedial or removal measures, e.g., securing the site to prevent contact with any hazardous or toxic substances, and/or removal of contaminated material from the surface;
2. Design and implementation of the EPA approved remedial option for addressing any groundwater, surface water, soil and air contamination;
3. Any monitoring and maintenance necessary after remedial measures have been completed.

EPA will immediately move forward with the remedial investigation and feasibility studies (RI/FS) unless you notify EPA in writing BY NO LATER THAN JUNE 17, 1985 of your intent to undertake the RI/FS. In the event that you decline to undertake the complete cleanup of the site at this time, EPA will invite you to undertake the design and implementation of the selected remedy upon the Agency's completion of the RI/FS.

Your letter should identify - by name, address and telephone number - your representative for further contact with you regarding this matter.

EPX0014171

Your letter of response should be sent to:

Ms. Janet C. Feldstein  
Site Investigation & Compliance Branch  
Emergency and Remedial Response Division  
U.S. Environmental Protection Agency  
26 Federal Plaza  
New York, New York 10278

EPA anticipates a request by the recipients of this letter for additional information concerning the proposed activities at the subject facility. Accordingly, we have reserved a time and place for a conference among all recipients. The conference will be held on Monday, June 10, 1985, beginning at 10 A.M., New York State Hearing Room, 44th floor, Two World Trade Center, New York, New York. Attendance at this conference will provide you with the opportunity to discuss with EPA your responsibility for addressing any problems at this site.

We have enclosed a list of the addressees of this letter, should you desire contact with each other before the June 10 conference.

Sincerely yours,

  
William J. Librizzi, Director  
Emergency & Remedial Response Division

Re: In the Matter of AIRCO, et al.  
EPA Docket No. II-CERCLA-50106, concerning the  
Scientific Chemical Processing Site, Newark, N.J.

Dear Sir or Madam:

Enclosed please find the fully executed consent Order issued by the Regional Administrator of the U.S. Environmental Protection Agency ("EPA"), Region II, in connection with the above-referenced site. Thank you for your cooperation in promptly returning the signed consent Order to us.

The caption of the Order lists all those parties who signed the document by the deadline we had established. (This deadline, originally March 28, was extended to April 1.) All the remaining responsible parties which we have identified will be receiving a similar unilateral Order requiring them to participate with the consenting parties in the cleanup work.

The original Consent forms for each consenting party, showing the signature of the individual who executed the document, are on file in our offices. A complete set of copies of all such signed Consent forms will be provided to the steering committee which has been created to coordinate activities at the site.

The Order is effective on April 1, 1985.

Sincerely yours,

Walter E. Mugdan  
Chief  
Waste & Toxic Substances Branch  
Office of Regional Counsel

Re: SCP Site, Newark, New Jersey:  
Ridge Printing Co., Inc.

Dear Ms. Feldstein:

It was a pleasure meeting you yesterday at the Police Plaza gathering. As per Richard Ricci's discussion with you, please find enclosed Ridge Printing documents that I believe contain the information requested in the "Information Requested" attachment to the EPA's letter to Ridge dated February 12, 1985. Please do not hesitate to contact me if you have any questions regarding or wish to discuss these documents.

Thank you for the courtesy that you have extended regarding Ridge's response to your request.

Very truly yours,

Re: Scientific Chemical Processing, 411 Wilson Ave.,  
Newark, New Jersey - Administrative Order  
Pursuant to Section 106 of CERCLA

Dear Sir/Madam:

Enclosed please find a copy of the final version of the administrative Order (on Consent) to be issued by the U.S. Environmental Protection Agency (EPA) Region II for the performance of immediate removal measures at the Scientific Chemical Processing (SCP) site in Newark, New Jersey. No further changes to this document are anticipated.

EPA notified numerous potentially responsible parties (PRPs) in February 1985 that it has documented the release and threatened release of hazardous substances at the SCP-Newark facility and that EPA contemplates taking an Immediate Removal Action, as defined in the National Contingency Plan, 40 C.F.R. Part 300. On February 20, 1985, a proposed draft consent order providing for a voluntary removal action by cooperating PRPs was sent by EPA to all recipients of the February notice. On February 26, 1985, a meeting was held at the World Trade Center, New York City where representatives of EPA and the State of New Jersey met with many of the above-mentioned PRPs and their counsel to exchange information and discuss a publicly financed versus a privately financed removal action at the subject facility. Immediately following the meeting, a committee of cooperating generators and/or transporters was formed ("the Committee").

At a meeting held on March 6, 1985 at EPA Region II offices, representatives of EPA and the State of New Jersey met with the Committee to discuss certain terms of the Order. Since that time, the Committee has participated in a number of informal

EPX0014104

negotiations with EPA to attempt to reach agreement on the terms of the Order. As a result, a proposed administrative consent Order, which EPA believes sets forth reasonable requirements for conducting an immediate removal action under a reasonable time schedule has, in fact, been drafted with input from and in cooperation with the Committee.

I have been advised that your company or client is interested in consenting to the issuance of this Order and in assuming responsibility for the performance of the work pursuant to its provisions. If so, please have a responsible corporate officer or agent sign the signature page at the end of the enclosed Order and return the Order with the original signature to me NO LATER THAN 5 P.M., MARCH 28, 1985 at the following address:

Waste and Toxic Substances Branch  
Office of Regional Counsel (Rm. 437)  
U.S. Environmental Protection Agency - Region II  
26 Federal Plaza, New York, New York 10278

Any company whose consent is received by EPA after that time may be too late, as final issuance of the Order is planned for March 29th; therefore, your prompt attention to this matter and use of express mail or courier delivery services are recommended. Signatures may also be provided in person at this office on March 28th.

Because of the large number of companies expected to sign this Order, it is not practicable to have all companies sign one document. Instead, copies of the Order are being sent to each company listed in the caption of the document. Upon receipt of each company's signature, EPA will compile the signature pages and, upon issuance of the Order, EPA will make available to each consenting company a copy of the Order with all signatures.

Should any company fail to consent in a timely manner to the Order, the name of that company will be deleted from the caption on the first three pages. Similarly, the caption may be altered to reflect any additional participants. Since the March 6, 1985 meeting, forty-nine (49) additional Respondents have been added to the caption.

In order to provide an opportunity to the 49 additional Respondents to discuss this matter with EPA and the Committee, we have reserved a time and place for a conference among all the parties listed in the caption of the enclosed Order. The conference will be held on Wednesday, March 27, 1985, beginning at 10 A.M., in the Police Auditorium, First Floor, One Police Plaza, New York, New York. (Police Plaza is located at the corner of Park Row and Pearl Street, near City Hall and Foley Square in downtown Manhattan.)

EPX0014195

By this letter, EPA is hereby informing you that upon settling with cooperative PRPs, EPA intends to vigorously seek remaining relief, including costs, penalties and treble damages where appropriate from the nonconsenting parties. Specifically, EPA intends to issue a parallel unilateral administrative order to each of the non-consenting PRPs pursuant to Section 106 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. §9606. Failure to comply with such an order gives rise to liability for civil penalties of up to \$5,000 per day, as well as liability for punitive damages of up to three times the amount of any costs incurred by EPA in the removal action. Included among these costs would be all response and oversight costs incurred by EPA with respect to the above-mentioned orders.

Furthermore, in the event it becomes necessary for EPA to institute additional publicly funded response actions at the SCP-Newark facility, EPA will recover all costs incurred in connection with institution of these actions including direct and indirect oversight costs and all incidental enforcement-related expenditures, through a demand for payment, and, if necessary, a collection action pursuant to 42 U.S.C. §9607. Although CERCLA provides for full joint and several liability among all responsible parties, and although all PRPs remain liable for costs incurred by EPA in implementing the removal and remedial provisions of CERCLA, consistent with present EPA enforcement policy, such a demand for payment or collection action could be commenced, initially, solely against the PRPs which refused or otherwise failed to participate in the efforts of the Committee to achieve an environmentally acceptable remedy at the subject facility.

In addition to the assurance that EPA intends to take aggressive enforcement action against the non-settling PRPs, the consenting parties who may have paid more than a reasonable portion of the site cleanup costs may look to the equitable remedy of contribution for seeking reimbursement from the non-consenting PRPs. The government's position is that CERCLA provides a right of contribution among jointly responsible parties. This is clear from both the legislative history and the intent of the statute.

By this letter, EPA is further informing you that subsequent to the signing of the consent Order and the issuance of all related unilateral orders, EPA will consider evidence of a PRP's non-involvement at the SCP-Newark facility. If any company is able to demonstrate, to EPA's satisfaction, that it is not a responsible party with respect to the SCP-Newark facility, EPA will withdraw the order as to that party.

EPX0014196

Although the time remaining for resolution of whether a publicly or privately funded removal action will be instituted at the SCP-Newark site is short, EPA believes that an arrangement can be reached among the PRPs which will allow a negotiated settlement of the cleanup to occur.

If you have any questions, please contact Ms. Kathleen Chojnowski of my staff at (212) 264-5342, or Ms. Janet Feldstein of our Emergency and Remedial Response Division at (212) 264-8098.

Sincerely yours,

Walter E. Mugdan

Re: SCP Newark

Dear Ms. Feldstein:

This letter will confirm our telephone conversation of this afternoon wherein you granted Ridge Printing Company up to and including March 29, 1985 to respond to your information request in the above-referenced matter.

Thank you for your assistance and cooperation.

Very truly yours,

Re: Scientific Chemical Processing  
Facility in Newark, New Jersey

Dear Sir/Madam:

Enclosed please find a proposed administrative order to be issued by the United States Environmental Protection Agency (EPA) pursuant to Section 106 of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. §9606. This draft consent order addresses proposed response actions at the Scientific Chemical Processing facility located at 411 Wilson Avenue, Newark, New Jersey.

EPA is sending you this draft order at this time so that you may consider it in preparation for a meeting to be held on February 26, 1985 concerning this site. As you were informed in a letter dated February 12, 1985, that meeting will start at 10 AM and will be held in the New York State Hearing Room, 44th Floor, Two World Trade Center, New York, New York.

EPA reserves the right to modify, supplement, or otherwise alter the provisions of this document. Nothing in it shall be construed to waive the government's position as to joint and several liability at hazardous waste sites.

Sincerely yours,

*William K. Sawyer*

Re: Scientific Chemical Processing, 411 Wilson Ave.  
Newark, New Jersey

Dear Sir/Madam:

The U.S. Environmental Protection Agency (EPA) has documented the release and threatened release of hazardous substances, pollutants and contaminants at the above-referenced site. The property upon which the subject facility is located is presently owned by Leif R. Sigmond and/or Dominick Presto.

This letter constitutes official notification to your corporation that EPA may conduct an Immediate Removal Action, as defined in the National Contingency Plan, 40 C.F.R. Part 300, at the Scientific Chemical Processing site. EPA has determined that such an Immediate Removal Action is necessary to prevent an immediate and significant risk of harm to human health and the environment, as defined at 40 C.F.R. §300.65(a).

Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. §9601 et seq., and other laws, parties responsible for the release or threatened release of hazardous substances into the environment from an uncontrolled hazardous waste site may be liable for all monies expended by the federal government to take necessary response actions at such facilities, including investigation, planning, removal, and remedial actions at these facilities; such parties may also be held liable for any enforcement costs incurred by the government.

Under CERCLA, responsible parties include the current and past owners and operators of a facility as well as persons who generated the hazardous substances or who were involved in the transport, treatment, or disposal of those substances at the site.

MD  
FDY0014202

EPA has in its possession information which indicates that your corporation may be a responsible party within the intent of CERCLA. This information includes hazardous waste manifests obtained from the New Jersey Department of Environmental Protection. Before the government undertakes necessary action at the site, we wish to know if your company will voluntarily perform the work required to abate any releases or threatened releases of hazardous substances, pollutants and contaminants from the site.

For your information, the Immediate Removal Action contemplated by EPA will include but will not be limited to the removal of all tanked liquids, drummed wastes, and otherwise containerized wastes present at the Scientific Chemical Processing facility and such proper disposal of those wastes as may be indicated upon analysis of the constituents of those wastes. Disposal of the wastes currently at the Scientific Chemical Processing facility may include removal of the wastes to a secure landfill, incineration, or other appropriate disposal methods. Liquids shown to be compatible by analysis will be bulked and disposed of properly.

EPA estimates that its total initial response action as summarized herein, will cost approximately \$3,275,000 (three million two hundred and seventy five thousand dollars).

In addition to the immediate removal steps outlined in this letter, EPA will also determine, at a subsequent time, whether additional corrective measures are required to mitigate the releases from the Scientific Chemical Processing site and to protect the public health, welfare and the environment.

EPA may proceed with this Immediate Removal Action unless your corporation notifies EPA by March 4, 1985 that your corporation intends to undertake the Immediate Removal Action and any other measures which may be necessary to achieve a total remedy at the SCP site.

EPA requests that you respond to this letter either:

1. by stating unambiguously that your corporation declines to perform or participate in the performance of a voluntary Immediate Removal Action ;

or

2. by stating unambiguously that your corporation will perform or participate in the performance of a voluntary Immediate Removal Action at the SCP facility by submitting the appropriate name, address, and telephone number of a representative of your corporation, with whom EPA may communicate to coordinate commencement of the removal work.

EPX0014203

This reply should be sent to:

Janet C. Feldstein  
Site Investigation & Compliance Branch  
Emergency and Remedial Response Division  
U.S. Environmental Protection Agency - Region II  
26 Federal Plaza  
New York, New York 10278

If EPA has not received an affirmative response to this letter by March 4, 1985, EPA may perform the removal work by itself or may issue an unilateral order(s) for the performance of the removal work.

EPA anticipates a request by the recipients of this letter for additional information concerning the proposed activities at the subject facility. Accordingly, we have reserved a time and place for a conference among all recipients.. The conference will be held on Tuesday, February 26, 1985, beginning at 10 A.M., New York State Hearing Room, 44th floor, Two World Trade Center, New York, New York. Attendance at this conference will provide you with the opportunity to discuss with EPA your responsibility for addressing any problems at this site, and/or the terms of any order which EPA may issue. BE ADVISED THAT EPA DOES NOT CONTEMPLATE HOLDING ANY OTHER CONFERENCE RELATING TO THIS SITE OR TO WORK TO BE PERFORMED THERE, EVEN IF UNILATERAL ORDER(S) ARE SUBSEQUENTLY ISSUED.

Finally, by this letter, EPA is seeking to obtain certain information from your corporation. Under the provisions of Section 104 of CERCLA and Section 3007 of the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. 6927, as amended by the Solid Waste Disposal Act Amendments of 1980, EPA has the authority to require any person who generates, stores, treats, transports, disposes of, or otherwise handles or has handled hazardous wastes and substances to furnish information related to such wastes and substances. Pursuant to these statutory provisions, you are hereby requested to answer the questions posed in the Attachment to this letter.

Your answers to these questions must be sent to EPA within fourteen (14) calendar days of your receipt of this letter. Failure to comply with this request may result in an order requiring compliance or an enforcement action under Section 3008 of RCRA, 42 U.S.C. Section 6928. Such enforcement action may include the assessment of substantial penalties of up to \$25,000.00 (twenty-five thousand dollars) per day for continued non-compliance.

EPA regulations covering confidentiality of business information are set forth in Part 2, Subpart B of Title 40 of the Code of Federal Regulations (40 CFR). For any portion of the information that is submitted which is entitled to confidential treatment, please assert a confidentiality claim in accordance with 40 CFR

EPX0014204

\$2.203(b). Information covered by such claim will be disclosed by EPA only to the extent, and by means of the procedures, specified in 40 CFR Part 2, Subpart B (40 CFR \$2.201 et. seq.). EPA will construe the failure to furnish the confidentiality claim with your response to this letter to be a waiver of that claim, and the information may be made available to the public by EPA without further notice.

Your response to the request for information should be considered separate and distinct from that relating to voluntary cleanup activities at the site.

We have attached a list of the names and addresses of the companies to which this letter has been sent, so that communications can occur between them before the day of the conference. Should EPA learn by the time of the meeting of additional potentially responsible parties, you will be so advised on February 26, 1985.

I hope you will give these matters your immediate attention.

Sincerely yours,

William J. Librizzi, Director  
Emergency and Remedial Response Division

### Information Requested

1. Were any hazardous substances and/or hazardous wastes and/or chemical wastes which your company transported, stored, generated, disposed of, or otherwise handled, subsequently handled by Scientific Chemical Processing, Inc., Presto, Inc., or the Energall Corp., located at 411 Wilson Avenue in Newark, New Jersey? If the answer is yes, please identify such hazardous substances and/or hazardous wastes and/or chemical wastes by providing the name, composition, and source of origin of such hazardous substances, hazardous wastes, or chemical wastes. (Please provide sampling analyses where available.)
2. Please indicate the amount and nature (liquid, solid, sludge), of each hazardous substance and/or hazardous waste and/or chemical waste identified in your answer to question one, above. For liquids your answer should be in terms of volume; for solid materials, in terms of weight.
3. Please explain how the hazardous substances and/or hazardous wastes and/or chemical wastes identified in your answer to question one, above were containerized, e.g. drums, bulk solids, tanks, etc., and the dates they were transported from your facility.
4. Please submit a copy of each manifest and any other document which relates to the generation, handling, transportation or disposal of hazardous substances and/or hazardous wastes and/or chemical wastes identified in your answer to question one, above. If you are unable, for any reason, to provide a copy of such document, identify the document by describing the nature of the document (e.g., letter, file memo, invoice, inventory form, etc.), describe the relevant information contained therein, identify by name and job title the person who prepared the document, and if the document is not readily available, identify where it is stored, maintained or why it is no longer available.
5. Were any hazardous substances and/or hazardous wastes and/or chemical wastes which your company transported, stored, generated, disposed of, or otherwise handled, subsequently handled by Scientific Chemical Processing, Inc., Presto, Inc. or the Energall Corporation, located at 216 Paterson Plank Road, Carlstadt, New Jersey? If the answer is yes, provide the information described in questions 1 to 4 for those hazardous substances. (If any of this information has previously been submitted to EPA Region II, you need not resubmit that information. You may simply refer to your prior response.
6. Please submit a copy of any lease, contract or other written agreement you entered into with Scientific Chemical Processing, Inc., Presto, Inc., or the Energall Corporation.

EPX0014206

7. Please identify any person having knowledge of facts relating to the transportation to, or the treatment or disposal of hazardous substances and/or hazardous wastes and/or chemical wastes at the subject facility (411 Wilson Avenue, Newark, New Jersey) or the former Scientific Chemical Processing facility in Carlstadt, New Jersey.
8. Please identify any other person e.g., company, individual, partnership, etc., that you have reason to believe transported and/or disposed of hazardous substances and/or hazardous wastes and/or chemical wastes at the subject facility (411 Wilson Avenue, Newark, New Jersey).
9. Please identify any other person e.g., company, individual, partnership, etc., that you have reason to believe transported and/or disposed of hazardous substances and/or hazardous wastes and/or chemical wastes at the Scientific Chemical Processing facility located at 216 Paterson Plank Road in Carlstadt, New Jersey.
